Ans. (B)

Sol. According to the subject 'medication', this is the correct verb.

Instructions for Q.No.86 to Q.No.90

Read the passage and choose the best alternative for the questions given below :

Artists use colour to create patterns. Colours can also show different moods. Bright colours make us feel happy and energetic. Dark colours make us feel calm and sad.

The primary colours are red, yellow and blue. They are the colours that can be mixed together to make different colours. Mixing two primary colours makes a secondary colour. The secondary colours are orange, green and violet (purple). Orange is made by mixing red and yellow. Green is made by mixing yellow and blue. Violet is made by mixing red and blue. Intermediate colours can be made by mixing a primary and a secondary colour. Some intermediate colours are 'blue-violet' and 'red-orange'. Black, white and grey are special colours. They are called neutral colours.

Colours have been organized into a colour wheel. It shows the three primary, the three secondary and the six intermediate colours. Artists use the colour wheel. It helps them to choose the colour combination they want to use together.

86. Which colour make us feel that we have lot of energy.
(A) Bright colours (B) Dark colours (C) Dim colours (D) White colours

Ans. (A)

90. Colour wheel is a tool that helps the artists to _____.

- (A) know the different shades of colours.
- (B) see all the colours at a place.
- (C) choose the combination of colours.
- (D) know about the primary, secondary and intermediate colours.

Ans. (C)

Sol. As given in the passage.

Instructions for Q.No.91 to Q.No.100:

Read the passage and choose the best alternative for the questions given below :

Bees are very wise and busy little creatures. They live in a house called hive. There are three kinds of bees: workers, drones and queens. Each bee takes its proper place and does its own work. It is pleasant to see how busy they always are. Only one queen bee can live in its hive. She keeps busy laying eggs all day. Some go out and gather honey from the flowers; others stay at home and work inside the hive. But the drones do not work. The bee hive is made of wax cells. The wax cells which they build are of the same size and shape. The cells are not round. They have six sides.

Bees have a painful sting that they use in their defense. They have their stingers the end of their abdomen. The drones do not have stingers. The bees use their sting when they think that their food is in danger. When the bees sense danger they can quickly gather together and attack. Once a bee stings, it dies.

91. How many queen bees lives in a hive?
(A) five (B) two (C) a group (D) one

Ans. (D)

Sol. As given in the passage.

92. According to the author, hard work, is done by :
(A) all except the drones (B) all the bees (C) Only the drones (D) only the queen bee
